THE PRINCELY PALACES

THE LIECHTENSTEIN GARDEN PALACE AND CITY PALACE

ELEGANT VENUES AND JEWELS OF ART HISTORY IN TWO PRINCELY PALACES

For several centuries the Liechtenstein GARDEN PALACE and the Liechtenstein CITY PALACE have been deeply rooted in the history of Vienna – built over 300 years ago by the princely family of Liechtenstein. The GARDEN PALACE in the ninth district of Vienna has become a favourite locale for elegant events, film- and photo-shoots. Since April 2013 the Liechtenstein CITY PALACE, situated at the heart of Vienna near the Burgtheater and the Volksgarten, has provided additional impressive events venues. The unique atmosphere of the palaces conveys an impression of aristocratic life.

Accessibility

Both palaces and the exhibited works of the Princely Collections can only be visited as part of booked events and guided tours at fixed dates and upon request. There are no regular opening hours. During spring, as part of the annual special exhibition of the Princely Collections, the GARDEN PALACE is accessible daily without prior registration.

Please find more information regarding the Palaces on our website www.palaisliechtenstein.com as well as our social media channels via Instagram and Facebook.

The Liechtenstein GARDEN PALACE as well as the CITY PALACE are part of the Liechtenstein Immobilien Wien portfolio which is an enterprise of the Liechtenstein Group. The companies within the Liechtenstein Group are owned by the Foundation Prince Liechtenstein.

THE LIECHTENSTEIN GARDEN PALACE

The GARDEN PALACE in the Rossau quarter is notable for its superb state of restoration which took place between 2001 and 2004. It is a stunning symbiosis of nature, architecture and masterpieces of art history. The beautiful Baroque interiors together with the magnificent gardens are available for hire as innovative settings for events: from small-scale to large-scale events such as cocktail receptions, gala dinners, concerts, weddings, film- and photo-shoots, lectures, company presentations or seminars. Guided tours of the Princely Collections as part of an event package are an exclusive highlight for guests.

THE LIECHTENSTEIN CITY PALACE

Since April 2013, the Liechtenstein CITY PALACE also provides exclusive venues for functions and a luxurious setting for high-end social and corporate events: After 5 years of most elaborate renovation the CITY PALACE appears now in all its former glory. The prime location in Vienna's city center, the exceptional state rooms, and selected masterpieces from the Princely Collections from the Classicism and Biedermeier periods make the STADTPALAIS a highlight for events.

A magnificent ensemble of Baroque stucco ceilings, opulent neo-Rococo interiors and original furnishings complemented by Michael Thonet's fine parquet flooring form a harmonious whole, revealing insights into the aristocratic life of bygone epochs. A selection of unique masterpieces of art from the Biedermeier era may be viewed exclusively as part of an event or a booked guided tour.

GEMS OF ART HISTORY

One of the world's largest and most important private art collections, owned by the Prince von und zu Liechtenstein, contains masterpieces from the early Renaissance to the Biedermeier era, including highlights from the oeuvres of Peter Paul Rubens, Rembrandt, Anthony van Dyck, Lucas Cranach the Elder, Frans Hals and Raphael, Amerling and Waldmüller, as well as the Badminton Cabinet, the most expensive piece of furniture in the world. The collections also include unique and precious holdings of prints and engravings, Italian bronzes of the 16th and 17th century, pietra dura objects, porcelain, tapestries and ivories that once graced the castles and palaces owned by the family.
